Introduction meeting, part 2

VET 4 Change : exchanging practices in Europe about VET in rural areas

28 August 2020

Including information from Erasmus Agency meeting (2 sept 2020)

participants

Alina and Adina, GAL NAPOCA, Romania

Hildur, VMA, Iceland

Pascale and Francine, IFOCAP France

« VET 4 Change » Erasmus + 2020-1-FR01-KA202-080504

reminder of the project aim

As globalization continues to interact with the economic and social balances of the territories, many actors are **looking for tools and innovative ways to improve the dialogue between education and training systems and skills requirements in the territories.**

The challenge is to **enable VET decision-makers and other actors to reinforce their posture and affirm strong territorial positioning within the European space,** integrating global challenges especially human migration and the SDGS.

The project aims to find the tools and methods that enable **the active listening of the territories** and lead to the **development of the most strategic competences for the decision makers.**

Action learning and research methods will be used by partners to identify and enhance fairly quickly their strategy with the territorial, European and global challenges.

by understanding **the approach of a territorialised political project, policymakers will be able to prepare to assume responsibility** in a territory as an elected or member of a coordination or animation team.

Awareness of the **European framework and global challenges should facilitate action** by expanding the strategy.

In the eyes of the partners, this step is the prerequisite for vocational training systems in line with skills needs in the regions, able to respond quickly and qualitatively.

Participants

This project is globally dedicated to **decision makers** whatever their scope of intervention is (national, territorial/local level) with a focus on **direct youth expression** and participation to decisionmaking processes in their territories.

It is highly recommended to have a pool of staff persons (2 or 3 at least) who will follow the main processes during this project.

organisation regarding the sanitary context

We keep a close eye on the decisions to protect public health but the group will do his best to facilitate the meetings and the common discovery of different european territories.

Here are some information that could help to define a relevant organisation despite difficulties to organise travels and meetings :

About travel from Iceland (it seems that every country has more or less the same issues)

it is quite likely that Icelandic administrators will be careful in sending people from the school to other countries, at least the next few weeks.

Also we are not solely working in International relations so it will be a bit hard to do quarantine. Johannes teaching will be disturbed and Hildur's work at the library will be impossible through a quarantine.

2020/2022

Kick off meeting preparation

We decide to Keep the kick off meeting through a serie of distance meetings between 12 and 16th of October

Through these meetings, we will work on the financial and administrative aspects of the programme but above all we will try to define :

what we want to share, what we have in common (issues...)

the method to work with the territories (how to work with the stakeholders and how to implement it with the stakeholders)

the communication plan

the role of each organisation and of each person participating in the dynamic

trainings and « study visits »

Olivier discussed with the Erasmus Agency to postpone the study visits to a better moment (Berlin and maybe Romania).

Transportation

It could be wise to buy refundable tickets and/or last minute tickets to be able to face any changes in our capacity to move from one country to another

2020/2022

Budget

After talking to the Erasmus Agency, we can confirm 3 things :

Management costs can be used for preparatory work between partners

Training sessions can be organised partly online. It is allowed to use 15 % of the session fundings in order to implement it virtually (ie : if a training session should cost 10 000 €, we can use 1 500 €)

Transnational meeting line cannot be used

Communication about the project

We need some English text about the new project

Define a communication tool (a website like we did for InnoVET ? slideshows ?)

- A little background,
- why this project ?
- A little about InnoVET.
- The partners.
- What will be the work during the project.
- The proposed meetings.

Something like that ? [https://prezi.com/6ttyw55svuxd/?](https://prezi.com/6ttyw55svuxd/?token=47a4a3d2397a718d2448e993d101fe8f2630467e1da33551d45447759c783748&utm_campaign=share&utm_medium=copy)

[token=47a4a3d2397a718d2448e993d101fe8f2630467e1da33551d45447759c783748&utm_campaign=share&utm_medium=copy](https://prezi.com/6ttyw55svuxd/?token=47a4a3d2397a718d2448e993d101fe8f2630467e1da33551d45447759c783748&utm_campaign=share&utm_medium=copy)

Using youtube for video slideshows ?

Johannes would like to prepare four slideshows. Perhaps videos with us explaining the slideshows. I think it is important to be able to present our school and territory to the other partners and to explain the project to people in Iceland.

- a slideshow in English about VMA and the region

- a slideshow in Icelandic about the project and about the InnoVET project.

- a slideshow in English about the regional authority (not really an authority but a cooperation venue for the municipalities in North East iceland. This is Called SSNE (Federation of Municipalities in North East Iceland) They have already agreed to be connected to the project (I would like to bring a representative to one of the meetings.)

2020/2022

logo leader Eesti, Inter-Mondes

- a slideshow in English about a cooperation committee of secondary schools in the region. SAMNOR is it called. They have also agreed to take part in some way in our project.

Collecting data before analysing them

How are we going to collect documents, presentations and other materials related to the project?

Johannes would like to ask if he can collect the documents he has and get on a webpage within a former project.

This is the website.

<https://workqual.vma.is/index.php?title=WorkQual>

The Webpage could look like this. (In Icelandic)

https://workqual.vma.is/index.php?title=Open_studies

This is just a list of documents related to a special topic.

Another suggestion is to create a new website as we did for Innovet. Here is a suggestion :

<https://vet4change.frama.site>

We could introduce the partners

Organise a portfolio for our work

Use the blog for every step

And add pages if needed

2020/2022

logo leader Eesti, Inter-Mondes

Thank you for your attention 😊

Next meeting

In September, Friday 11th

at 11 :00 AM (CET) (9 AM for Iceland, 12 AM for Romania and Estonia)
