

Introduction meeting

VET 4 Change : exchanging practices in Europe about VET in rural areas

21 August 2020

Partner's logo (can you send me your logo ?)

participants

Ivana, breza, Croatia

Triin, National federation LEADER, Estonia

Adina, GAL NAPOCA, Romania

Johannes, VMA, Iceland

reminder of the project aim

As globalization continues to interact with the economic and social balances of the territories, many actors are **looking for tools and innovative ways to improve the dialogue between education and training systems and skills requirements in the territories.**

The challenge is to **enable VET decision-makers and other actors to reinforce their posture and affirm strong territorial positioning within the European space,** integrating global challenges especially human migration and the SDGS.

The project aims to find the tools and methods that enable **the active listening of the territories** and lead to the **development of the most strategic competences for the decision makers.**

Action learning and research methods will be used by partners to identify and enhance fairly quickly their strategy with the territorial, European and global challenges.

by understanding **the approach of a territorialised political project, policymakers will be able to prepare to assume responsibility** in a territory as an elected or member of a coordination or animation team.

Awareness of the **European framework and global challenges should facilitate action** by expanding the strategy.

2020/2022

In the eyes of the partners, *this step is the prerequisite for vocational training systems in line with skills needs in the regions*, able to respond quickly and qualitatively.

Participants

This project is dedicated to decision makers whatever their scope on intervention is (national, territorial/local level) with a focus on direct youth expression and participation to decisionmaking processes in their territories.

It is highly recommended to have a pool of staff persons (2 or 3 at least) whor will follow the main processes during this project.

organisation regarding the sanitary context

We keep a close eye on the decisions to protect public health but the group will do his best to facilitate the meetings and the common discovery of different european territories.

Brussels preparation

Transportation

It could be wise to buy refundable tickets and/or last minute tickets to be able to face any changes in our capacity to move from one country to another

Hotel

GAL NAPOCA is working on suggestions for hotels in Brussels
(any ideas for Berlin in November ?)

Thank you for your participation 😊

Next meeting

Friday 28th of August

at **11 :00 AM (CET)** (9 AM for Iceland, 12 AM for Romania and Estonia)
