

Evaluation of the C2 action learning session 9 to 13 May 2022, Slovenia

Some hints to feed your roadmap (pedagogical evaluation)

Introduction and context of your experimentation

A few keywords after the session

3 or 4 concepts / theoretical inputs : definition and description

- **Regenerative economy**
- **Leadership**
- **Building common stakeholders culture through action**
- **Intergenerational cooperation**
- ...

Why are those theoretical inputs important for you ?

How do you plan to reinvest this in your territory and everyday work ?

If possible, make connexions with the vocational education and rural development

If you want, you can add examples from the visits

You can add a Focus on LAG LEADER and how these organisations could be a keystone of territorial dialogue about vocational training
