

# VET 4 Change kick off meeting program

## 14<sup>th</sup> and 15<sup>th</sup> Oct. 2020

DRAFT

To be confirmed regarding the “mobility and meeting” rules in Belgium and Brussels

### Host organization “inter-Mondes”

“Inter-Mondes” is one of the first Belgian associations to have been created in 1996 by and for actors from both the South and the North.

Originally designed primarily to make known in Europe the wealth of popular dynamics initiated in the South, it gradually redeployed its activities to support all forms of appeals and interconnection in the North as well as in the South:

- knowledge (academic and popular);
- practices (public, private);
- cultures (traditional, modern, working, etc.);
- people (West African space and Europe);

with a view to political change: transforming the current society of individuals into a society that re-establishes the Collective, the others and the other as a concern for each and everyone.

The word Inter-Mondes affirms its rejection of the idea of a "south" which would only be exploited and victimized for a more shared and more interdependent vision of the causes of the problems as of their solutions. It is distinguished as well as the concept of "Third worlds"

It interests people from the world of development, the social economy, banks, businesses, politics, universities... and seeks to build bridges between these worlds.

Economic alternatives (from rural point of view) and crosscultural approaches

Discussion about rural economy (green deal strategy) bioeconomy
